

5-1 system · Receiving rotations

Based on the KSV guide "Receiving positions and movements". Net at the top of every court, dashed line = 3 m line.
OP = diagonal (D) in the guide. R1 = setter in position 1 (H1), R2 = H6, R3 = H5, R4 = H4, R5 = H3, R6 = H2.

Rules of thumb

- 1 Three players receive

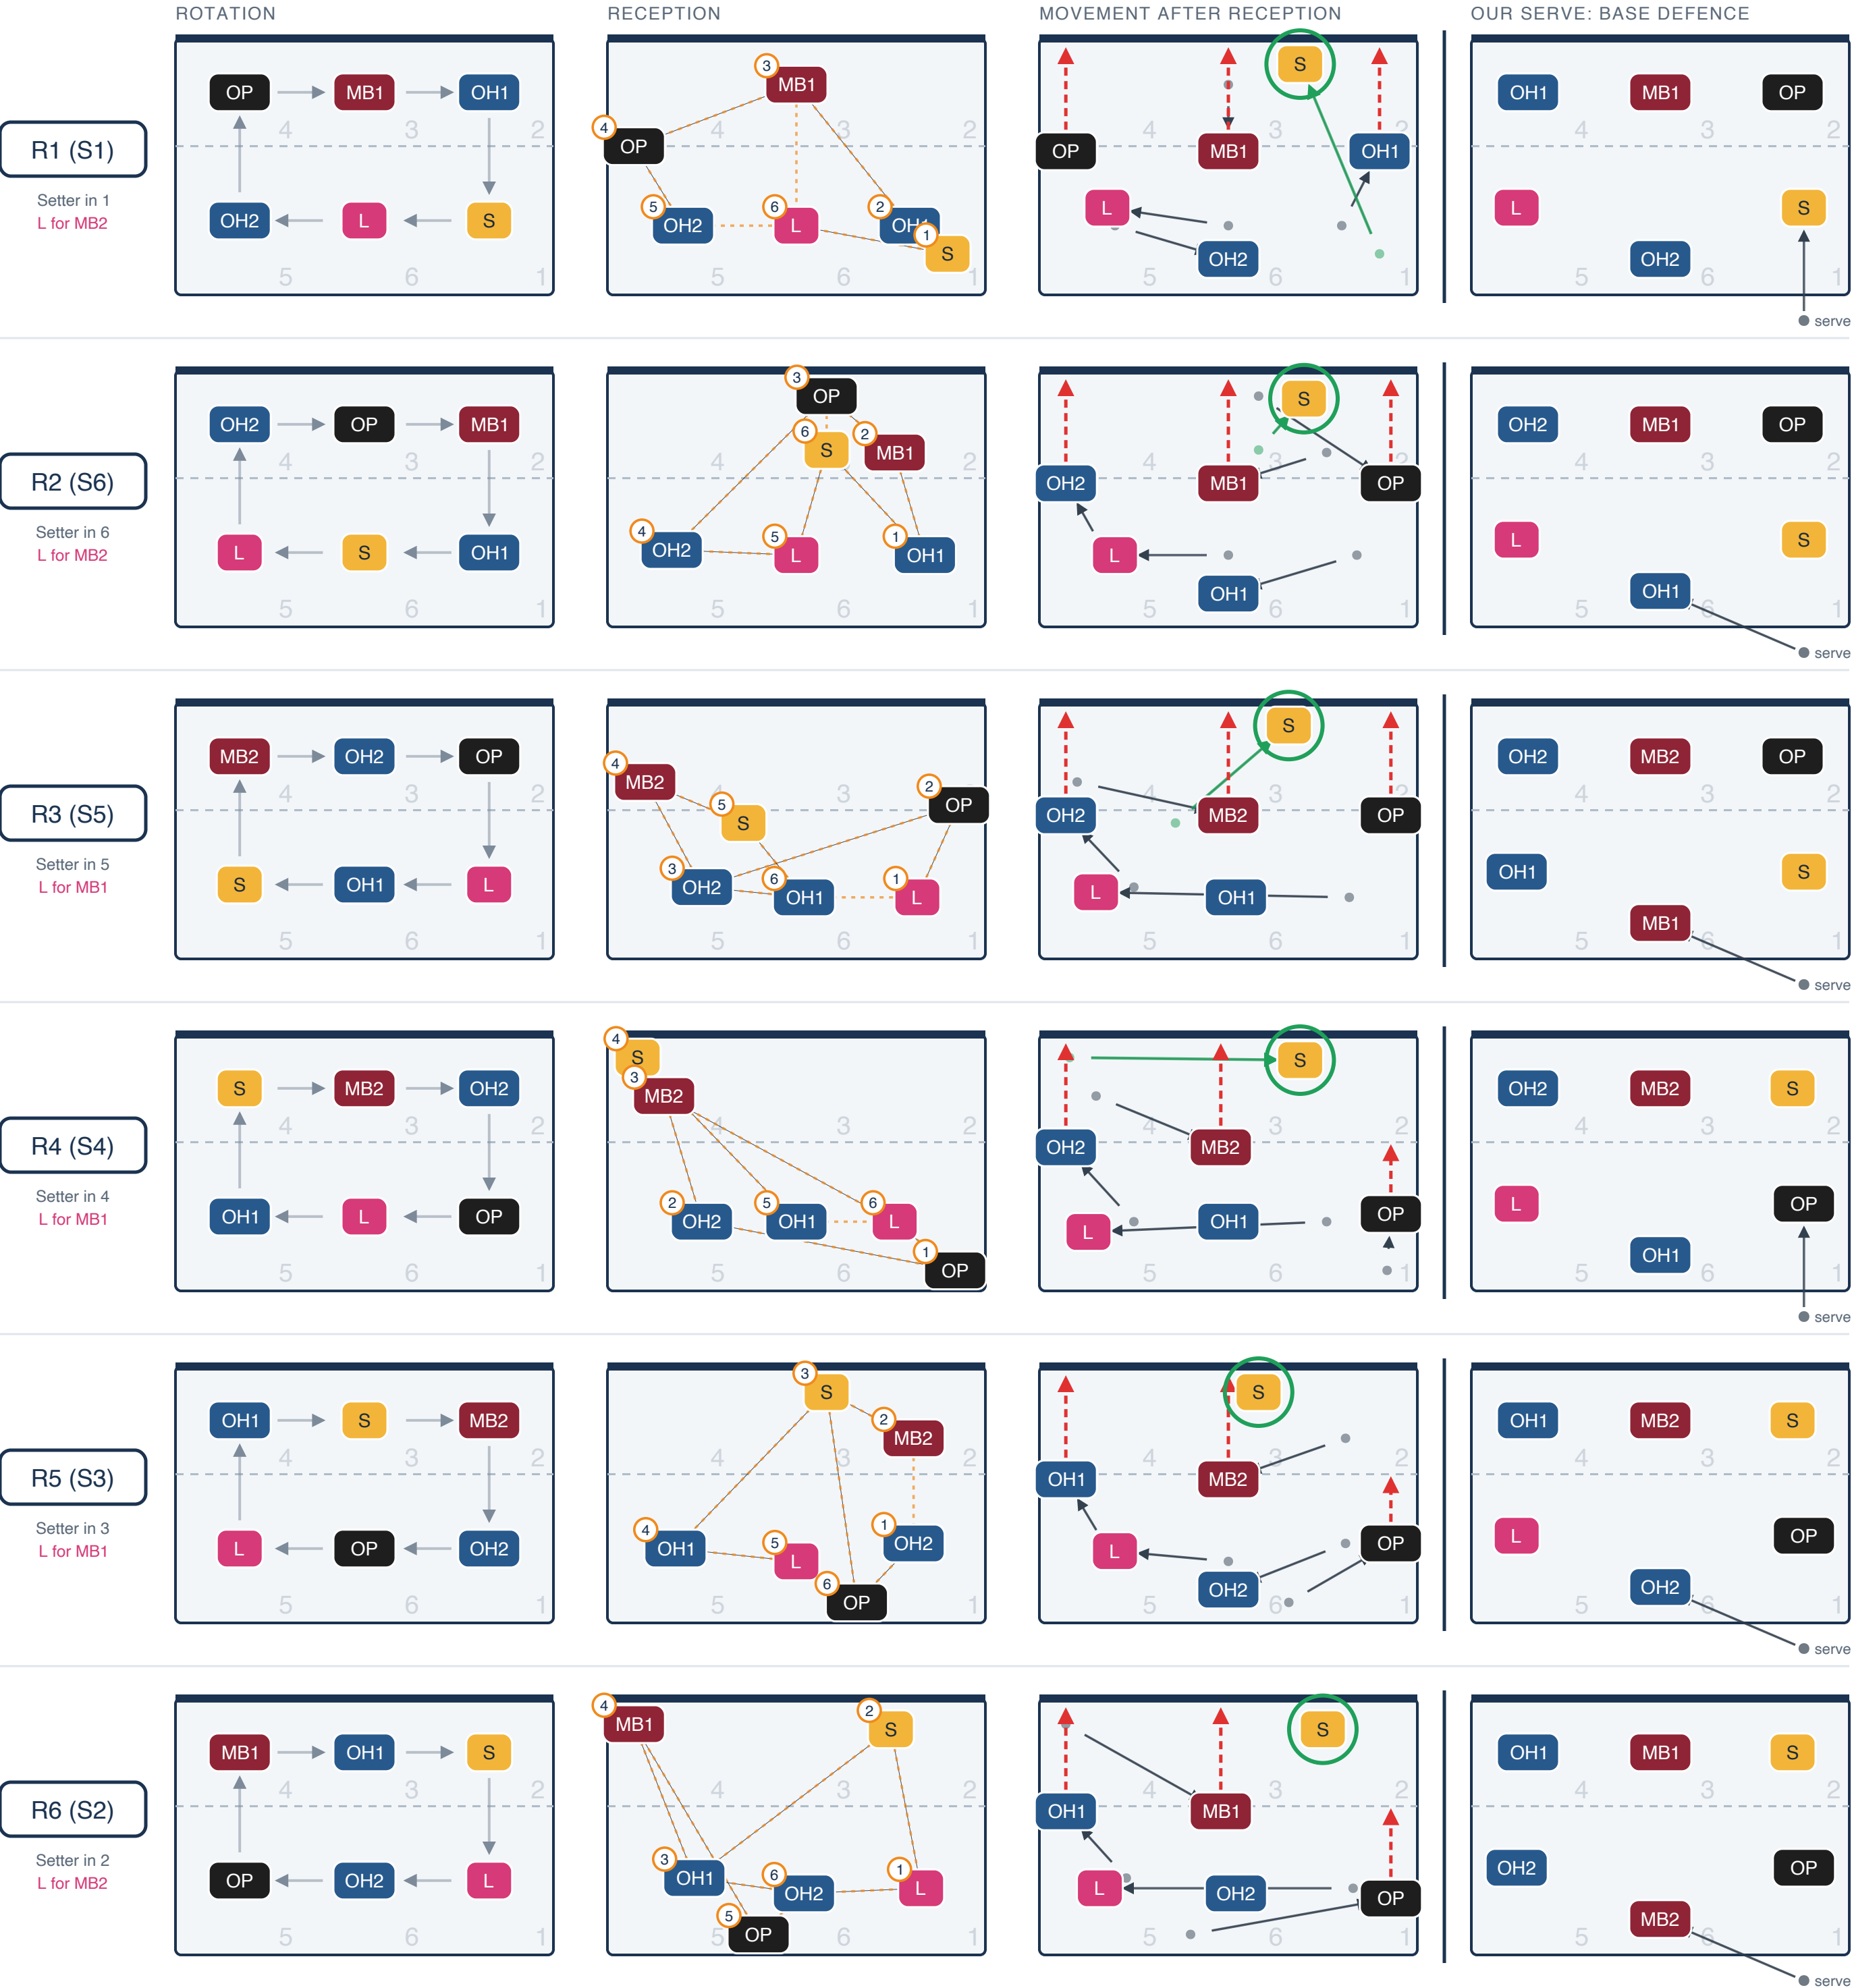

The two outside hitters and the libero form the receiving unit.
- 2 Front-row outside starts left

Changes only when the setter is in position 1 (R1).
- 3 Back row follows the attack

Complete the movement shown after the attacking action.
- 4 Opposite goes straight to 1

When starting in the back row, prepare immediately for the back-row attack.

Before every serve 1 Where is the setter? 2 Who is in front/behind and beside me? 3 Am I on court, or is the libero in? 4 What is my job after the pass?

Setter

Opposite (D)

Middle 1 / 2

Outside 1 / 2

Libero

Rotation: one zone clockwise

Rotational position

Overlap pair (when receiving)

Attack approach

Positioning movement

Setter movement

Back-row opposite attacks from behind the 3 m line.

KSV | Receiving positions and movements - "Our serve" = base defence (not in the guide, not confirmed by the coach). R3 and R6: the middle in zone 1 serves, because the libero may not serve (FIVB).
The serving team has no overlap rule (FIVB 7.4, since 2025): stand in your defence spot before the serve; only the server moves. Rows still count for blocking and attacking.
